

BEMER has become a globally operating company with thousands of independent distributors around the world. The passion for helping people is deeply ingrained in BEMER's DNA - it's why we do what we do! BEMER devices are the complete personal and professional solution for improving a person's wellbeing.

IBDs Earn Income Through the BEMER Compensation Plan

Commissions are the profits paid on the personal product sales to an individual who is purchasing a BEMER device for personal use. IBDs are also paid commissions on the product sales volume of their team if they have one. No commission payments are made for the recruitment of new team members. IBDs cannot earn money by recruiting new team members only.

Independent BEMER Distributors (IBDs) are not required to make any product purchase at any time. The fee to join the Compensation Plan as an IBD is \$299, and the annual renewal fee costs \$180. These fees go towards the cost of providing you with BEMER Academy training, BEMER Backoffice (BBO) services, a replicated website, as well as related ongoing administrative services.
